HAMLIN, JONES COUNTY, TEXAS, FRIDAY, SEPTEMBER 19, 1941

NUMBER 47

Jones County Is Now A Picture Of Beautiful Greenery, Peace, Prosperity

Ye Herald Man had an opportunity, and the delightful pleasure, Tuesday of traveling over the roads of Jones county, by the side of thousands and thousands of acres of farm lands, for a distance of about 150 miles. What we saw was enough to thrill the heart of any citizen who loves to see humanity succeed and enjoy the blessings of this free America of ours.

Truly Jones county, right now is a picture of expanding greenery, fresh and thriving, in every nook and corner, where every citizen has something to do, peace and prosperity reigns supreme, as the approach of autumn air brings the fruits of labor to complete ripening.

That one may understand how broad we made the picture, Tuesday, let us say that not every prosperous community was visited but enough to permit one's mind to visualize what the "unseen" sections must look like. From Hamlin to Radium, to Neinda, to Boyd Chapel, to Noodle, to Stith, to Truby, to Hodges, to Hawley, to Anson, to Funston, to Lueders, to Avoca, to Ericksdahl, to Stamford, to Corinth, to Plainview, to Tuxedo, to Dovie, and to Hamlin, makes a survey of one of Texas' most outstanding agricultural areas of this size.

It takes an experienced eye, a steady hand and a constant realization of the magnitude of a country like Jones county, in a flourishing time like unto what we may see this September of 1941, all in one day of driving.

It seems that every acre of ground, whether tilled by the patient hand of a farmer or one that has been left for grass for fine cattle, is doing its full production for humanity at this time. The only marring thing now to be seen is the work of the leaf worm and the boll weevil. In all our miles, not one distinguishable cotton bloom, the much beloved flower that glorifies the farmer's cotton field, could be seen. That means the weevil has clipped the beautiful flower for a place to deposit its eggs to produce some more long billed destructive weevils, and thus the flower never bursts forth, and hence what cotton bolls that are now beyond Mr. Weevil's "punctuating power" are the only ones to look to for 18c per pound lint, and \$57.00 per ton seed.

Right now cotton is hard to guess at. Perhaps over 40,000 bales will be made. Some guess more, and there may be more. Some fields, especially very young cotton, will make but little, because of both leaf worms and the weevil. Some fields are bare, showing shining bolls in the sun light. Some fields of older cotton reached the tough stage and perhaps because of poison, the pests have failed to strip. But on the whole, this year, cotton is king in Jones county. Pulling cotton is in full swing now, with prices around 75 cents per hundred, and that means money to the common laborer for a few weeks. Cotton from 15 to 18 cents per pound and seed at \$57.00 per ton or higher, means prosperity to the farmer even if he has but a few acres.

As one travels along, on every side, where last year was cotton, this year you see feed fields, rich and ripe, producing tons per acre, while last year feed fields, now generally have cotton. Wheat was a complete failure, generally, this year, and now the fields are coated with a thick green volunteer growth, that will make wonderful fall and winter pasturage. However, many tractors were running Tuesday turning the broad green acres for other sowings or for winter mellowing, and early spring plantings.

The amount of feed fields, some already harvested, some ripe and ready, some just grown, some yet fresh and tender, but all with heavy production, is the most attractive farm view you get these days. Long rows of shocks, or whirling trucks with rich golden grain heads and ricks by the stock pens, bespeak of more poultry, fatter hogs, and attractive steaks.

Jones county in this September of 1941, has reached the stage of being a stock-farming community. Jones county never had more, and prettier cattle, dairy herds, beef

stock of all grades than now. The animal that is not fat had better be examined. The price, well, the price is getting too high for comfort, either to the stockman, or the ones who would enjoy a bit of good steak. Meat is meat, lard is grease these days, and the farmer who has such is fortunate.

The only thing perhaps that would make a real man or woman unhappy in Jones county now, is the fact that so much of the world is hungering for food, even a little bit, while about us are bountiful abundances that we can not consume. Yet occasionally one hears an animal-like human grumble; some greedy, unthinking, unthankful person saying this country is going to "low-dams". Truly this Jones county corner of this blessed America has enough to satisfy every nature . . . there is beauty, bounty, peace and prosperity.

There are lots of things worthwhile to notice as one travels over Jones county. Farm families on most prominent roads have gained conveniences not enjoyed by city communities in a day not so far away. High power electric lines are reaching out to make the farm home comfortable, and relieve the farm woman of drudgery. Home refrigeration, home ice, electric lighting, cleaning, churning, sweeping, etc., are now available in most of Jones county. Jones county has hundreds of miles of lateral roads besides the many fine hard surfaced highways. Jones county farm roads are compliments to our County Commissioners, who have graveled most roads to every rural school and church in the county. Travel is generally safe and easy unless in wet weather, in every section of the county, because our roads are level and well graded and maintained.

And as one travels over the net work of roads in Jones county, he will see more and more well built, well kept and attractive homes, which after all speak the essence of life in any land. Country homes now are attractive with flowers and in many cases velvety lawns. On this line there is room for great improvement. Every farm home can be made attractive.

Prosperity and contentment are shown by the number and quality of milch cows, and flocks of poultry, as one travels over the county. There is room for great improvement in the manner of handling and marketing poultry and dairy products in Jones county. All these things in any country mean labor, but where there is no labor there is no life or happiness. A lazy people can not be prosperous or happy. Surely there is not much laziness in Jones county.

Life in Jones county is now one day-long whirl. It is a whirl to the cotton fields, a whirl to the gins and the gins are beginning to whirl till far into the night. No produce on the farms makes a job for as many people as that of cotton. Cotton ramifies labor continuously over hundreds of thousands of miles as the expanding usages of the white silky fibre spreads.

Jones county cotton gins, to the number of 29, are just getting into full whirl. In some districts, the first bale was ginned, Tuesday, while in others the hundred bale mark has been passed. So as prosperity lies in the lap of Jones Co. people, it behooves every one to keep his "feet on the ground" and enjoy that contentment and happiness not prevailing in lands where individual enterprise and freedom is not possible under strange forms of despotic government.

While viewing the picture of progress, prosperity and contentment in Jones county Tuesday, there was one other thing that came into view; On the highway between Stamford and Anson, we heard the whir of strange trucks. We looked, and behold, lorie after lorie crowded with young men, the cream and glory of this land of America, of Jones county . . . soldier boys, being whisked on and on, their firm strong bodies rocking away their time, and their fine faces with that far-away look; not a look of despair, but one of determination, a look of patriots, going, going, God only knows

where, but it was clear that they were ready to press on and go wherever their blessed country with its rich fields of happy people says they must go to keep this country a place of prosperity, contentment and happiness . . . those lads made a picture, too, that made one's heart well up with appreciation for the part those boys are playing in this time of trial as well as prosperity. Sacrifices? Who is making a sacrifice? What are WE doing as compared to that bunch of lads who are offering their all and may have to give their all? Back up any fine picture you may draw, with a feeling of gratitude and willingness to support every soldier lad who may be whisked from here to yon, to protect what we all now enjoy. You finish the picture.

Hamlin Pipers Too Much For Lueders

Hamlin's foot ball fun started last Friday night in a good game with the spunky Lueders Pirates.

Lueders boys get a fine try-out each season by playing their good neighbor, Hamlin. As usual in the first game, the boys are soft, and the weather is hot. But the weather was kind as far as temperature last Friday night. In fact, it was a game after an all day rain. But in spite of the wet and chill, the long rock seats were well filled and financially, the game was a success as well as one of training.

Coach Marcus Smith and Melvin Grigg have the stuff to make Hamlin stand out as one of the champs again. Maybe Lueders expected to be out played by the Pipers and were not disappointed. The score was 19 to 0 for Hamlin. Hamlin had 20 pounds on the Pirates, and weight counts, you know.

In the Piper back field appeared one Dean Witt, a 125 pounder who plays beyond his size. Witt got a big hand for his good work as quarterback. Dean is a twin of Gene, who is mentioned as "Big Witt". Both boys are going places.

S. C. Ferguson, a holdover from last year's big plays, was up to old style in the first game. S. C. has no fear, no regards for anything in his path, and he, too, is again one to watch. Two other Pipers who are going to show stuff again include Bobby Barrow and R. M. Petty.

Hamlin made 18 passes, completed 7. Hamlin made 10 first downs to Lueders 3. Lueders' leading players were Reeves, Henderson, Brown, and Middleton.

TO CORRECT OR FILL OUT

The write up of the death of Jim McGough last week, information given failed to say that in addition to the list of girls who carried flowers, the names of Sammie Nell Rush and Carrie Kutach should have been given. Also that Mr. and Mrs. McGough had lost an infant son at the age of four days.

Mr. and Mrs. C. A. Carter visited their son, E. L. Baxter and family at Lacota on Monday of last week.

Tommy Hill, Alvin Johnson, Jack Ellison and Misses Herbie Faye Johnston and Dorothy Fern Routh, all 1940 graduates of the Hamlin High school, have enrolled as freshmen in Hardin-Simmons University.

Yates & McCurdy Cotton Buyers, Move To Their New Office

Yates & McCurdy, cotton firm of Hamlin, can now boast of one of the newest and most commodious cotton offices in this part of Texas. Recently they purchased the building formerly occupied by the late attorney, Elmer Rodgers, on 8th Street, east of Central Avenue. They have done extensive remodeling, repainting, rearranging rooms, and inserted extra north light windows in their large sampling room. In fact, these hustling cotton specialists have more room now than they really are using.

This cotton firm has its entire offices on the ground floor and whether it be summer or winter, every part of the building will be well ventilated for comfort.

Mother Died While On Way From Europe

The many friends of Mrs. Frieda Schoemann in Hamlin deeply sympathize with her and her son, Kurt Schoemann and wife because of the death of her mother, Mrs. Emilie Hirschberg, age 80 years, who died Saturday, September 13, in the Cuban State Hospital, Havana, Cuba.

It was on Wednesday of last week that Mrs. Schoemann received a message from the Jewish organization in Cuba that Mrs. Hirschberg, had been taken from the now famous ship, Navemar, a Spanish ship with over-crowded passenger list of refugees from various countries in Europe. The message said that she was unconscious and in a serious condition. Messages were received each day stating her condition was growing worse. She passed away on Saturday.

This is a case where the results of cruelty in Germany has brought to the Hamlin people an example of the deepest sorrow. The bereaved family and their many friends in Hamlin are as helpless as even the distressed people from Europe who were seeking this American nation of freedom.

The extremely over-crowded conditions on the Spanish ship, the anxiety of mind and weakened body with perhaps lack of proper food and rest facilities was too severe for all elderly persons on the ship. This family truly has the sincere sympathy of all who know them.

COTTON PICKER-PULLERS HAMPERED BY RAINS

Wednesday another drenching rain stopped cotton gathering in all this section. Cotton is still very wet and green, and it begins to look as if frost will have to come to kill all vegetation to let it dry out. But as long as frost stays away, there will be more time for boll growth and maturity. Cotton pullers will figure more importantly in Hamlin this season than in many years. Good cotton and extra pay for pulling will begin to show effect within a few weeks.

Bob Huxford and wife of Tulia have moved to Hamlin to make their home. Bob is a young dry goods salesman and has been with the B. Hassen Dept. Store now for about three weeks. He and his wife have rooms in the Hackley Apartments. The Herald management has known the Huxford family a long time and we are glad to welcome these fine young people to Hamlin.

Complete School Faculty Announced This Week

Below is a list of the teachers working in the Hamlin Independent Schools in 1941-42. One less teacher is employed this year than was

used last year due to a slight decrease in scholastics.

Several new names are in the list.

High School Teachers

MR. HUBERT MORTON, Principal
MR. J. MELVIN GRIGG, Commercial and Athletics
MR. S. E. BROOKS, Mathematics and History
MR. MARCUS W. SMITH, History and Athletics
MISS EMMA JOHN BLAKE, Spanish and English
MISS CAMILLE SYMERS, Homemaking
MISS MYRA SAMFORD, English and Gym
MISS LOUCILLE WILLIS, Mathematics
MISS AVALEENE MURPHREE, Speech, English
MR. CLYDE SMITH, Music and Band
MR. LUTHER M. ARCHER, Science
MR. R. H. CAMPBELL, Vocational Agriculture

Elementary Teachers

MR. H. A. JOHNSTON, Principal
MR. MORRIS JEFFRIES, Social Science
MISS LULAN VAUGHAN, Language, Arts
MISS ALICE REESE, Social Science and Math.
MISS ESTHER PECK, Public School Music
MISS GEORGIA MOORE, Fifth Grade
MISS CLYDENE WILSON, Fifth Grade
MISS LALA MAE REYNOLDS, Third Grade
MISS CORINE TRAWEEK, Third Grade
MISS RUTH MAYHEW, Second Grade
MRS. MARY FARROW, Second Grade
MISS MAE JAMES, First Grade
MISS LADELLE MACON, First Grade

G. R. BENNETT, Superintendent of Schools

New Oil Drilling To Start In Stonewall Co.

This week Hamlin has received a number of new families who will be connected with new development wells to be drilled in Stonewall County a few miles north of the Double Mountain Fork of the Brazos River.

Unusual activity will likely go forward in the near future. Hundreds of thousands of acres are yet to be tested in this section of West Texas. These wells are not entirely "wildcats" for already north of the River are wells producing satisfactory quantities.

We may expect further drilling this side of the river, too. One well several years ago had a fine chance to be a producer on this side of the river, and was lost. They have the records on that and have not forgotten the prospect.

The new families coming have been fortunate in locating suitable living quarters in Hamlin. Others may be expected. People who have apartments or houses to rent should let it be known as they may be needed any day.

3. Hassen Store Is Back At Old Stand

All this week the B. Hassen Dept. Store sales force has been very busy moving their stock of goods back to his old stand across the street next to the Day Hardware.

B. Hassen used this store for many years and of late months he has so increased his stock that more room was needed. To see how the larger building is filled, one would wonder where he had everything before moving.

A new salesman has been secured, a Mr. Huxford of Tulia, a wide-awake young man experienced in dry goods merchandising. This young man and Mrs. Withers and Mrs. Hassen make up the principal sales force.

Mr. Hassen for a long time has been unable to do real work and is continuing to be careful of his health. He has fought a hard battle and now it looks like he is winning out again. Notice his opening ad on the back page of this paper.

Elmer Feagan, Jr., went to Austin Tuesday to enroll as a student in the University of Texas.

Miss Eula Haskew, teacher of English in Howard Payne College, returned to her home in Brownwood Sunday after a visit here with her sister, Mrs. S. E. Brooks and family. Lester Brooks accompanied her to Brownwood to resume his studies in Howard Payne College.

C. B. Alls Buried In Jayton Last Sunday

C. B. Alls, a prominent farmer of Stonewall county, died at his home 13 miles northwest of Hamlin, Saturday afternoon, September 13, at 3:45 o'clock. He had been in ill health for several months.

C. B. Alls was born in Blue Grove Clay county, May 11, 1886, but came to Stonewall county when he was a child and had lived there the greater part of his life. For more than 26 years he had lived on the farm which was his home at the time of his death.

Surviving are his wife and three sons, Willie, Raymond and J. C., and 2 daughters, Mrs. Jessie King, of Hood River, Oregon, and Miss Irene Alls, who with her three brothers, lives at the family home. He is also survived by two sisters, one, whose name we did not learn, lives in California, and Mrs. Lena Maxwell, who lives in Alaska, neither of the sisters were able to come.

Funeral services were conducted Sunday afternoon at 4:00 o'clock in Jayton by the Rev. Skiles and the Rev. Murdock and burial was in the Jayton cemetery, by the side of a son who had preceded him in death.

The Barrow Company of Hamlin was in charge.

Mrs. Alls' brothers and sisters attending the funeral were: Mr. and Mrs. G. L. Seifres, of Benjamin; Mr. and Mrs. D. W. Myers, of Eldorado, Oklahoma; Mr. and Mrs. J. W. Holder, of Hamlin, and C. M. Shipman, of Stamford.

Fisher Co. Will Hold Jack, Stallion Show

All indications are that the 8th Annual Fisher County Jack and Stallion Show to be held at Rotan September 26th, will be another outstanding event, says Ray Smith, president.

Mr. Smith says that our show is strictly on a non-commercial basis and the only motive is to create and maintain an interest in farm and ranch work stock.

T. H. Roensch, Fisher County agent, said that "Horses and mules are apt to play a big part in the national defense program."

Entries may be made in all kinds of classes for draft, medium draft, and saddle horses, as well as mules.

Entries are open in the work for draft Stallions and Jacks, however all other entries are restricted to Fisher, Nolan, Taylor, Jones, Kent, Stonewall, Scurry and Mitchell counties.

Judges for the show are W. T. McGee, Albany, and Wade Winston, Synder.

A LITTLE BIT ABOUT

This

AND A LITTLE BIT OF

THAT

A Hospital—

There are TWO things this Hamlin community needs badly, and right away...one is a creditable and suitable community Hospital, and believe it or not...the second pressing need is a New Cemetery. All of us are going to have need of these two community facilities, recognize that or not. Seriously, Hamlin needs both.

Of recent date, Hamlin community has furnished patients enough to fill at least a TEN bed hospital. Every one of them had to be ambulated from 20 to 40 miles. The transportation item is one that mounts up your hospital bill far in excess of what it would be if you had a modern and well staffed hospital within a few blocks of your own home. A home hospital would stop the inconvenience of going so far away. There are many lines of argument for a modern hospital in Hamlin. Besides the large number of Hamlin people who get into hospitals in other town, there are many who would be hospitalized if it were more convenient.

Any well equipped hospital, even on a small scale would not cost any more than what this community is paying every year by going to other places. We are paying out a hospital in extra costs of transportation.

A hospital with offices for at least two physicians would offer great satisfaction to this communi-

ty. At present, if a doctor has taken a patient away as far as 20 to 40 miles, he must give his time and charge cost by making trips to attend the patient, and the more serious the case the more often the doctor must make the long trips. So we are paying more than double for our hospitalizations. Just a little cooperation in the ranks of Hamlin community people and this hospital situation would be eliminated.

Yes, a hospital in Hamlin would be a going, paying concern, if the management would start out by letting every one who uses it understand that "no pay, no service". The Herald would like to hear others on this subject.

Now about the burial grounds: It is not altogether out of place here to mention both hospital and cemetery in the same editorial. You must realize that generally a hospital is used before the cemetery. Now, years and years ago, the people of this Hamlin community bought and paid for a small burial spot. It has been used almost completely, and it is up to the present citizenship to be future planners, and enterprising. Who is going to do it? What are we waiting on? Hamlin people cannot live and die on the plans laid out by the good old timers of 35 years ago.

Hamlin needs a hospital and also more ground or new land for a cemetery.

Torn By Politics—

If there is anything in the world too numerous, it is politics. And what is politics?

Don't care what Webster says it is, but to our way of thinking, it is some form of scheming, prying, maneuvering, bragging or belittling, bismirching, or boosting to enhance some personal selfish motive, for personal gain, or for glory, prestige advantage, for oneself or his family or party.

Politics is in everything, from the City Council, the School Board, the church boards, churches, county governments, state assemblies, and up into the head bodies of national governments. The smaller the area where politics operates, the "smearier" it is, and so what of it?

Politics is rank in this land of America. It is running rife in every land, only in other places it is more under cover, but it is there just the same. If there is any blight upon this civilization, it is too much politics.

No one can do anything about politics. It is in all of us, and if you don't work it on the other fellow, he will squeeze you with it. The only difference, some personalities do not give a hang which way things go till the wire-pullers get things so messed up until the real, unselfish, no-praise-monger can't stand it any longer and he comes up with some real fight.

Try to select any officer, any committee, any set of persons out of a bunch and watch old politics get busy. Pull the wires to hoodwink the other side of the gang, and do it politically. So many times, things are done under cover because the wire-pullers are so conscious-sure they are doing wrong that they must have a little darkness. It is about time to declare an open season on politics, from Hamlin to Halifax.

The political wire-puller is one who is afraid of his fellow man. Things must be done first by "picking" and then it is finished, take it and shut up—Politics! What crimes in thy name!

ENVELOPES—all kinds and sizes up to 12 X 15½ inches at The Herald

Feeder Is Better "Armed" Than 25 Years Ago

(Editor's Note—This is the second article of a series, "Feeding for Defense—and Profit", published as a service to farmers and stockmen)

Called upon to produce increasing quantities of dairy products, meats and other livestock products needed for National Defense, the Southern farmers are far better "armed" for efficient livestock production, today, than they were in 1916 or 1917, a comparison of conditions 25 years ago and now shows. Some of the many advances of the past quarter-century that enable more efficient livestock production include:

Research that has given greater knowledge of the importance of vitamins, minerals, proteins and other feed nutrients in balanced rations, along with increased knowledge and experience in the efficient use of such Southern feeds as cottonseed products, grain sorghums, citrus by-product feeds, and many others.

Twenty-five years ago feeders thought that cottonseed meal should be fed only in limited quantities for only short periods of time. Today, research has proved that cottonseed meal is an excellent source of protein in all well-balanced livestock rations, and all informed feeders know that unlimited amounts of cottonseed meal can be used indefinitely as long as cattle receive their vitamin requirements; and, that their requirements can be taken care of by feeding three to five pounds of good, bright green hay, daily.

Effective control methods that have virtually eliminated former costly losses from cattle ticks and bovine tuberculosis, and greatly reduced losses from contagious abortion, hog cholera, sheep parasites and many other livestock hazards.

The establishment and expansion of Extension Services, Vocational Agriculture Departments, Farm Security Administration, Soil Conservation Service, Dairy Herd Improvement Associations and other agencies which, in the past quarter-century have become major factors in improving livestock management and feeding methods.

The introduction, or increasing utilization, of such valuable feed and forage crops as the grain sorghums, the clovers, lespedeza, soybeans and Rhodes grass and many others.

Development of methods of more rapidly finishing cattle, hogs and sheep which save time and cost in meat production.

Increased use of the trench silo and other methods of more efficient conservation and utilization of feeds along with pasture improvement work and more efficient range utilization.

Improved types or breeds of animals adapted to the South and Southwest, such as the Brahma and Santa Gertrudis cattle, as well as the greatly increased number of good herds and individuals of the older breeds found in the South, today, as compared with 25 years ago.

All of these factors, and numerous others, make it much easier for today's farmer or ranchman to produce efficiently for National Defense, and profitably for himself, than it was in the past. In the South especially, these advances offer greater opportunities for the livestock industry to render a service to the nation while improving its own economic conditions and those of the South as a whole. Some ways in which Southern livestock producers can utilize these opportunities will be the subject of the next article of this series.

Mrs. J. F. Taylor, Mrs. J. W. Ezell, and others from the Hamlin Garden Club went to Haskell Thursday to judge yards in that city.

Mr. and Mrs. L. E. Stone and family left Monday on their vacation of three weeks. This has been delayed somewhat but after all September is a good vacation month. They will visit their daughter, Mrs. Jessie Parker and family in Amarillo and Mr. Stone's sister, Mrs. Bob McKinney in Houston, after that no telling where the S. W. Bell Telephone lineman will go. Mr. Stone is lineman for the telephone company here.

Bob Jack Low of Ft. Stockton spent the week end in Hamlin with old friends, while on his way back to Denton to resume his college work.

A. D. Dehart of Plainview was a visitor with his sister, Mrs. C. A. Carter and family in the Flat Top community last week.

BAPTIST CHURCH

We appreciate the fine attendance we have been having the past two Sundays. Let's continue to stay above the 300 mark in Sunday School. This is the last month of the Sunday School year. Promotion Sunday is coming the 28th. The new year starts the first Sunday in October.

Let's remember also that this is Loyalty Month for men. Fellows, we want you in the services. In fact, if you are a member of this church, you will want to do your best to attend. Monday night is time for our monthly meeting. We want a large attendance.

If old man hard luck doesn't drag us off to the hospital again this week, I will be in both services Sunday. Thanks to Mr. Clyde Smith and all of you for carrying on in such a splendid way while I was away.

H. E. EAST, Pastor

METHODIST CHURCH

JAMES E. HARRELL, Pastor

We are closing our Rally Day series of meetings this Sunday and Rally Day programs will be the order of the Day.

We urge everyone to attend our services Sunday, both for the Sunday School and the Church services.

Rev. Ray Lee, pastor of the Rule church, is assisting with the Children's Programs. Saturday afternoon at 4:00 o'clock he will have the children in a Rally Day street parade. At the close of the Sunday School, the children will also have a special Rally Day program.

Remember—
Sunday School, 9:45 A. M.
Morning Worship Service, 10:50.
Intermediates and Senior Young People meet at 7:15 P. M.
Evening Service at 8 o'clock.
Woman's Society of Christian Service, Monday afternoon at 3:00 o'clock.

Editor's P. S.: The above was phoned to the Herald by the pastor. His voice indicated that he had been running. We suggested that maybe he was fixing to marry a couple. He said, "How did you guess?" He was, and since he had been out of town so much this week, he really had been running and the marriage ceremony shortened his breath all the more. So here's hoping the pastor's announcement is correct. Don't blame US. (Maybe the marriage will come out next week.)

CANADA AT WAR

Prime Minister King returned to Canada from Britain on September 7. This is part of the Prime Minister's official statement, issued after his return to Ottawa:

"Of the impressions of my visit to Britain, the most vivid is a heightened sense of the immediate dangers of the present conflict to all parts of the world. Developments from now on may follow with surprising rapidity. Time as well as space is being eliminated.

"I have returned, too, with a deepened impression of the immensity of the peril and with an even stronger conviction that the defeat of Nazi barbarism and Prussian militarism which underlies it will come only from the unremitting and united efforts of all free men. The dangers with which mankind is confronted today are world encircling.

"I was greatly impressed by what I saw and what, on all sides, I heard of our Canadian forces. Our airmen are daily in the fight; our soldiers, impatient for action, have accomplished great things in strengthening the defenses of Britain herself.

"Mr. Churchill's words of praise of the vital role Canada's army has

DOVIE NEWS

By Opal Parker

The League had their regular program Sunday night on the topic "The Surrounding World". Those who had parts were Opal Parker, Elvin Cooley, Ida Faye and Bob Leudiker, J. K. Cooley, Mildred Green, and Kenneth Green. After League, Rev. L. K. Malone filled his regular appointment. The League had a social at Plasterco Saturday night. A large number were there from Pleasant Valley, Dovie, and Plasterco. After games were played, sandwiches were served. Everyone had a nice time.

The baptizing was held at the old Hamlin Lake Sunday afternoon at 3:00 o'clock. There were 5 who were baptized by the pastor, Rev. Alvis Cooley. They were Kenneth Green, Joan Green, Betty Jo Green, Mildred Green, and Erma Lee Green.

Mrs. Hudson and daughters, Ava and Valera, visited Mr. and Mrs. W. W. Ivey Sunday afternoon.

We are sorry to report that Mrs. Vera Bagley isn't any better. She has been ill for some time. We sincerely hope she recovers soon.

Mr. and Mrs. W. F. Poe went to Lubbock last week to take their daughter, Miss Maxine, to enroll as a freshman in Texas Tech.

Butane Gas, the most modern and economical convenience offered the home. Let us figure with you while prices are still low.

WORLD'S GREAT FEATURES WITH MIGHTY CIRCUS

FAMOUS NAMES PREDOMINATE
IN RINGLING-BARNUM
LIST OF WONDERS

The Big Show—Ringling Bros. and Barnum & Bailey—will exhibit in ABILENE, Wednesday, September 24th, and here's a synopsis of its 1941 features:

Mr. and Mrs. Gargantua the Great, the world's most publicized and fascinating gorilla couple; the new fairyland fantasy, "Old King Cole and Mother Goose," designed and costumed by Norman Bel Geddes, of New York World's Fair Futurama fame, in which 2,000 people and animals take part. Geddes has redesigned the circus from front to back.

"Old King Cole and Mother Goose" cost \$80,000, and is the grandest of all Big Show pageants; hence it is spotted on the program to follow Alfred Court's three great mixed groups of performing animals, so that late comers won't miss it.

The new Birdland aerial ballet, starring lovely Elly Ardely, costumed by Max Weldy of Paris and staged by Albertina Rasch, famed Hollywood and Broadway musical show director; an invasion of acts from South America, headed by the three flying Diego-Fernandez troupes; the great Truzzi, juggler; Hubert Castle, tight-wire star; the Yacopis, Gauchos and Divos, springboard somersaulting troupes; Adrianna and Charly, trampoline stars; Mlle. Louisa, flying trapeze marvel; the three Flying Concello troupes, with Antionette; the famous Riding Christiani family—in short, 800 world renowned artists. There are 1,600 people, 50 elephants, 1,009 menagerie animals and hundreds of horses.

New oil lasted 5,683 miles
longer than the runner-up
in Death Valley Death-Test
...CERTIFIED

Your own engine gauge-stick can tell you best about Conoco Nth motor oil. Next-best is to buttonhole the most frugal car owners you know around town. Some have never yet added a quart since changing to Conoco Nth. And you can see why right here—by the mileage figures from the Certified Death-Test of Conoco Nth oil vs. five other big brands.

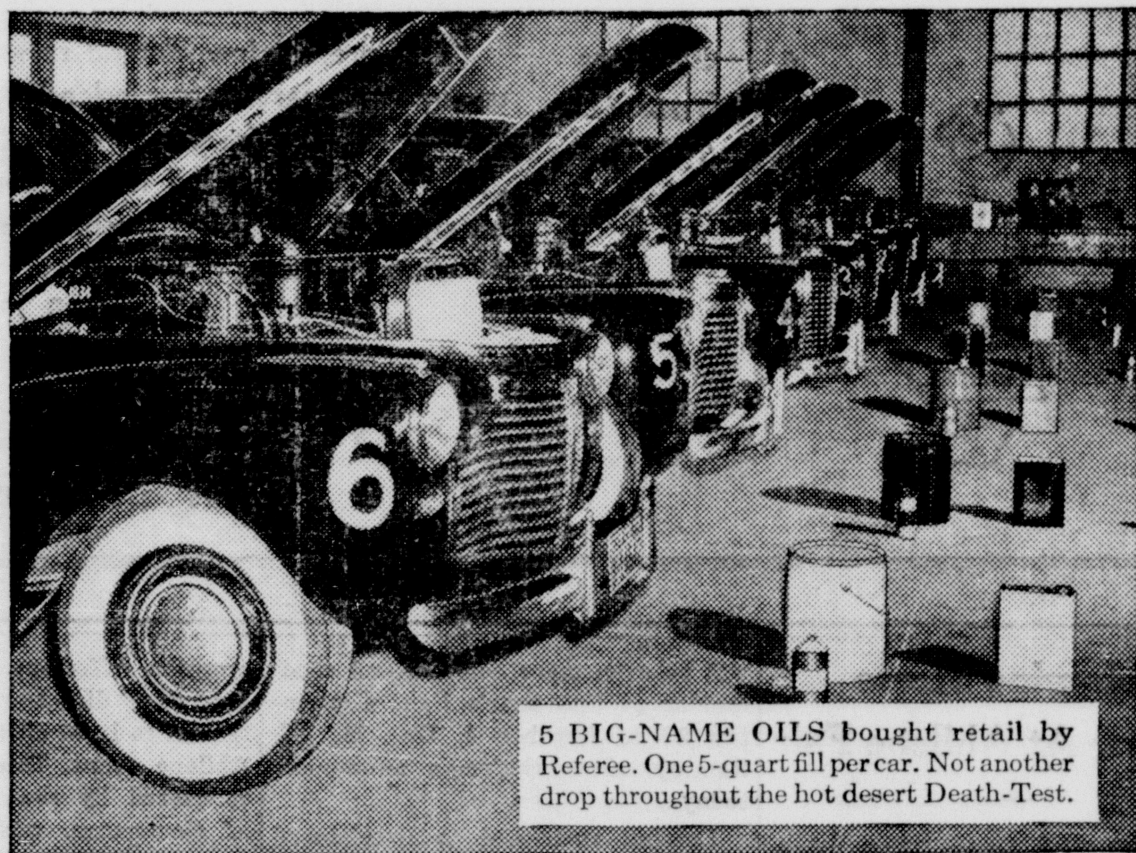

The whole big success of Conoco Nth started down in Death Valley—so hot you can't sweat. Here 6 new stock cars, strictly alike, each got one 5-quart fill of some one oil being tested. Then the Official Referee clamped on the locks; never a drop of oil could be added.

Eyed by impartial officials every instant, the cars all reeled off their 57 miles hourly. Here and there on the desert a carcass lay bleaching—and desert death awaited these car engines, too. For none could finish till its oil hit bottom—finishing the engine beyond repair.

CONOCO Nth gave nearly Twice the miles averaged by the others tested!

The 5-quart fill of Conoco Nth lasted 13,398 miles... Certified. Conoco Nth outlasted one big brand by 8,268 miles. Even the best of the five was outlasted 5,683 miles by Conoco Nth oil. Such a real difference must have a real source. And two real life-givers created by man... two modern synthetics... are in Conoco Nth motor oil.

You know of modern vitamin synthetics, making up for Nature's life-givers lost in some modern food processing. Similarly,

5 BIG-NAME OILS bought retail by Referee. One 5-quart fill per car. Not another drop throughout the hot desert Death-Test.

the extreme refining needed by oils for current cars has been destroying Nature's best life-givers! But in their place today Conoco Nth brings your engine the two patented Conoco synthetics.

One of these—man-made under the famed Germ Processed oil patent—will keep your engine OIL-PLATED with lubricant that can't all quickly drain off of inner surfaces. So OIL-PLATING is on guard against wear in advance! And the latest Conoco synthetic—man-made under U.S. Pat. 2,218,132—will check "festering" of oil that's encouraged by foul leftovers from every engine's normal firing. This common oil trouble is now checked or inhibited by the new man-made Conoco life-giver—Thialkene inhibitor.

You'll never Death-Test your Conoco Nth oil in sinister Death Valley, any more than you repeat other proving-ground tortures. You'll still drain and refill at recommended intervals. But how you'll expect to stretch the distance before adding a quart, judging by this big fact: 5 heavily advertised oils in the Certified Death Valley Test were outmiled 74% to 161% by Conoco Nth oil. Economy like that counts up into dollars! Change to Nth oil today at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

When a Child Needs a Laxative!

Your child should like this tasty liquid laxative and you should like the gentle way it usually wakes up a youngster's lazy intestines when given by the simple directions.

SYRUP OF BLACK-DRAUGHT contains the same principal ingredient which has enabled its older brother BLACK-DRAUGHT to give so many users such satisfying relief for so many years!

Perhaps that's why it usually gives a child such refreshing relief when the familiar symptoms indicate a laxative is needed.

SYRUP OF BLACK-DRAUGHT comes in 2 sizes. The introductory size is 25c; the economy size is 50c.

L. W. Weaver, of Weatherford, accompanied his son, Stanley, as far as Hamlin for a few days visit with his daughter, Mrs. Irvin Smith, and family. Stanley went on to Lubbock where he enrolled in Texas Tech.

Tom Neely, the big jolly hearted "meat man" who has served Hamlin so long has gone "Clover Farm" and if you want to hear him laugh, go down to the Clover Farm Store and listen. Tom is in charge of the Market down there.

Mrs. Marcus W. Smith, wife of Coach Smith, has an appointment as Camp Librarian at Camp Bowie. Her parents, Dr. and Mrs. B. E. Bell, reside in Brownwood, and Mrs. Smith and little son, Marcus Jr., age 5, will live at their home. Mrs. Smith has a nice situation in the library, with duties from 3:00 P. M. to 10:00 P. M. She is head librarian, having three degrees; B. A., B. S., in Library Science, and Masters degree. Mrs. Smith took her college work in the Texas State College for Women.

It's
Funny
How

Folks Still Call it the "Light" Bill

"WELL, Mary, here's the light bill for last month. Funny, isn't it, how we still call it the *light* bill! Remember when it really *was* the light bill?"

"Uu-u-m-m. Yes, siree. We were mighty proud to have just electric lights . . . and in those days we paid about as much every month as we do now, *and all we got was light*. And they were off in the daytime, too, and we weren't too sure of 'em at night.

"It's sure different now. We get darn good service. For about what we used to spend for lights alone, we're lighting the house a lot better and washing and ironing clothes, cleaning the rugs, toasting the bread, running the radio, using the refrigerator, and shaving my face. I'd say we're getting a lot *more* for our money."

"Why not call it the 'Service' bill?"

Yes, the old-time "light" bill today really is for "electric service," which has taken away a lot of old-fashioned drudgery and added a lot of pleasure and enjoyment. Electric service has been doing these things for less and less money. The thousand men and women in this organization have had the training and experience to serve you more economically. You profit from the business operation and management of the company which has but one aim—to keep on giving you *better service at lower cost*.

Letters
from the
People:

"Our present low electric rates, cheaper appliances, and unsurpassed service are indeed a joy when we look back to the old days of frequent interruptions and part-time service. . . . We often resorted to the kerosene lamp, stored away handy. And we paid 15 cents per kilowatt-hour and 50 and 60 cents for bulbs . . ."

—MRS. H. V. PAYNE, Dalhart, Texas

West Texas Utilities
CompanyBig Palomino Horse
Show At Abilene Fair

The Palomino Horse Show, popular feature of the West Texas Fair at Abilene for the past two years,

will be even more colorful and spectacular at this year's Fair, September 28 to October 4, Dr. M. T. Ramsey, show chairman announced today.

Entries, restricted to registered Palominos, passed the 200 mark last year, and are running well ahead of 1940 figures today, Dr. Ramsey said. Inquiries, or reservations, or both, have come from 16 states and the Republic of Mexico.

Four Palomino shows will be given this year, with nine or more events, Sunday, Monday and Tuesday afternoons at 2:30 and Monday night at 8, and there will be no grandstand charge, said Roscoe Blanketship, Fair president. The Texas Palomino Association sponsors the show in Abilene.

"As the word has spread that the first all Palomino horse show ever held anywhere was held here, and that it is an annual event at the West Texas Fair, inquiries about it come in almost daily from all over the United States," Dr. Ramsey said.

The show chairman predicted too, that the Palominos will be more beautiful than ever this year. "Since the 1939 show, many breeders have developed and bred their Palominos to a point where types are more definite, and colors are more perfect, he said. The Palominos will participate in the big annual parade on Monday, opening day.

Inquiries are numerous, too, about the first annual Quarter Horse Show, to be a Fair innovation this year.

A group of goodwill ambassadors, full of enthusiasm for the Fair's

program offerings, visited Hamlin, extending direct man to man invitations to local citizens to attend the Abilene event. Those in the group, sponsored by the Abilene Chamber of Commerce, were: Fred Hughes, Theron Guffey, Theo Ash, W. R. Daniel, and Geo. Page, were here Wednesday.

Texas Wild Life

If you're a white-wing hunter and bring down a bird with a band on its leg, don't throw either the bird or the band away!

It's not unlawful to kill a white-wing or any other bird that has been banded.

Take the band off the bird's leg and send it to the Game, Fish and Oyster Commission, Austin, Texas.

The bands are used for purely scientific purposes. Assistance of sportsmen in getting the bands returned to the Commission will be greatly appreciated, the Executive Secretary of the Commission said.

Birds are banded so that wild-life research scientists may check accurately on migrations and other life habits of birds, and recently hundreds of white-wings were banded in the lower Rio Grande Valley. Please help the Commission help the birds by returning any bands discovered!

LOOK Magazine & Travelers Safety Service

YES, LADY, we know you were well brought up. You say "Please" and "Thank you" and use the right fork and write the nicest bread-and-butter letters. But when it comes to your conduct while driving, you most definitely could learn manners from a truck driver.

Truck drivers are good drivers. They keep on their side of the road, they don't go at fantastic speeds, they practice that fundamental rule of democracy and good breeding: Give the other fellow a break.

Which is more than can be said for many of our nicest ladies and gentlemen. A strange transforma-

tion takes place when they sit behind a steering wheel. They ignore the comfort of friends riding with them. They disdain the rights of people on foot. They yell boorishly at drivers who displease them.

Many who wouldn't touch a nickel that belonged to someone else flaunt all law and order when behind a steering wheel, with the callousness of experienced criminals.

The serious part of this curious behavior is that bad manners make bad driving, and bad driving makes accidents and death.

So mend your manners and become a good citizen even when driving. It may save your life.

Tree Senoras Club Opens Autumn Season

Mrs. Bill Rountree was hostess to the Tree Senoras Club for the first autumn meeting in her home Tuesday afternoon.

Colorful flowers decorated rooms where games of bridge were played. High scores were made by Mrs. Clinton Barrow and Mrs. Q. Martin. At the conclusion of the play, a sad plate with iced tea was served. Members playing were Mmes. Othman, Hopper, Raymond Jones, Roy Gilbreath, Fred Carpenter, Willard Marry, L. H. McBride, Vera Nobles, and Don Davis, Clinton Barrow, and F. Butcher. Guests were Mmes. Jack Low and Q. Martin.

The Comrades Class Elects New Officers

The Comrades Class of the Methodist church met Sunday morning and elected new officers.

The following were elected: President, Mrs. Alvin Hudson. Vice-president, Mrs. Garrett. Sec'y-Treas., Miss Fay Stice. Mrs. W. H. Gilbert is teacher and Miss Emma John Blake was elected substitute teacher.

You are cordially invited to attend this class each Sunday.

First Autumn Meeting for Beta Theta Chapter

The Beta Theta Chapter of Beta Sigma Phi met in the first business session of the season Tuesday evening in the home of Miss Elsie Wienke. Miss Wienke, president, is in charge of the meeting. Official communications were read and delegates to the state conference in Austin, September 27, were elected. They are the president and vice-president, Miss Loucille Willis. Plans for the rush season in October were discussed.

The group surprised Miss Wienke with the close of the meeting with a shower of small household gifts to celebrate the establishment of her new home.

Refreshments were served to Mrs. Billy Toler, director; Mrs. John Edy, sponsor; Mrs. Perry Sparks, Mrs. Gerald Morgan, Mrs. Turner, Miss Emma John Blake and Miss Edwina Gilbert.

The first social meeting of the season took place a week previous when the group was entertained with a picnic by Mrs. Holly Toler and Mrs. Day, honoring Miss Nadine Morgan, retiring president, who is leaving from Hamlin.

SINCLAIR SCHOOL News of The Week

The Sinclair Standardized school had a large crowd present at the school house last Friday night. A party was given for the community. Everyone reported a very good time.

Sinclair school began last Monday week, September 8, with a good enrollment and many patrons were present.

The teachers this year are Miss Ella Stuart and Mrs. Wortham.

The trustees this year are Odell Swater, Lester Westmoreland and Charlie Stephens.

The school has reported progress nicely since it began.

Miss Charlotte Dillingham Gift Tea Honoree

Miss Charlotte Dillingham whose marriage to Mr. De France Burton will take place Friday morning, September 19, at 9:30 o'clock, was honored with a lovely gift tea in the home of Mrs. Bill Rountree, Friday afternoon, September 12, with Misses Billy Faye Rountree, Joan Culbertson, and Marion Martin, hostesses.

For the occasion the entertaining rooms were attractively decorated with roses and marigolds, shading from creamy tints to deeper gold.

Guests were welcomed by Miss Rountree and presented to the honoree, Miss Dillingham, and her mother, Mrs. Joe Dillingham. Others receiving were Mrs. J. H. Burton, mother of the groom to be, and Miss Marion Martin.

Mrs. Bill Rountree invited guests into the dining room where a white and pink color scheme was featured. The lace laid tea table was lighted with tall white candles in silver holders and the crystal punch bowl was encircled with sprays of crepe myrtle. Favors were tiny brides with flowing veils. Miss Joan Culbertson presided at the punch bowl and was assisted by Misses Betty Abbott and Joyce Hudson.

Miss Hazel Adkins directed to the room where gifts were displayed and Miss Phala Davis registered names in the pretty hand-made bride's book. Goodbyes were said by Miss Koleta Adkins.

Mrs. Jack Whorton Honored With Shower

Mrs. Irvin Smith and Mrs. Clarence Reynolds entertained Tuesday afternoon in the home of Mrs. Smith, honoring Mrs. Jack Whorton of Aspermont, who before her marriage August 30, was Miss Grace Johnson of Hamlin.

The entertaining rooms were attractively decorated with ferns and summer flowers. Forming the center decoration was an improvised arch under which stood a miniature bride and groom.

After several interesting games were played, little Miss Benita Irene Smith brought in a small gas truck loaded with lovely and useful gifts and presented them to the honoree. Delicious cake and punch were served to more than twenty guests.

Billy McGough, son of Mr. and Mrs. C. B. McGough, returned to Texas Tech last week to resume his college work.

Make Feather Comforts From Old Feather Beds

A demonstration on "Making Feather Comforts" from old feather beds will be given in Anson in the court house Saturday, September 20th, at 1 P. M. Any one interested is invited to attend this demonstration.

GLADYS MARTIN,
County Home Dem. Agt.

Even a part of a flower bed, or a small garden spot will be large enough to grow fall vegetables which are so very necessary for an adequate diet.

Card of Thanks

We wish to express our appreciation to our friends and neighbors for sympathy and kindness shown us during the illness and at the time of death of our husband and father. We thank you for the lovely floral offerings, and extend our thanks to Rev. Skiles and Rev. Murdock for their kind services.

Mrs. C. B. Alls and Children

Miss Loleta Ubben went to Abilene, Tuesday to resume her studies in Hardin-Simmons University.

Grow A Fall Garden For Added Food Use

By Gladys Martin
County Home Dem. Agent

Jones county farmers should take time out from picking cotton long

enough to free the garden of weeds and plow the soil 3 to 4 inches deep. If cloddy, chop up the clods until the soil is thoroughly pulverized. Where there is adequate moisture, vegetables that can stand the heat of September and October may be planted now. Try some mustard greens, the Tendergreen variety. An ounce of seed will plant about 100

feet of row space. With proper moisture, you should have a "mess of greens" in about 30 days.

An ounce of Shoigoin or Purple Top turnip seed planted in rows will take care of another 100 feet of row space in the garden. Two pounds of onion sets will plant a third row, and 25 or 30 feet of Scarlet Globe or White Icicle rad-

ishes will add savor to the table.

When the weather cools off a little more, then add a hundred feet of carrots, using the Nantes or the Denver's Half Long. Detroit Dark Red beets should be grown as a fall, winter and spring variety. Bloomdale Savoy spinach is another wise choice.

Invented by members of Lone Star Gas paint crew this boatswain's chair enables them to paint pipeline suspension bridge rods in less time than they used to require. It was designed primarily for the safety of the painter.

GAS MEN invent CHAIR TO PAINT BRIDGE

Every Lone Star Gas System Employee understands that his first duty is to maintain the dependability of Lone Star Service... for dependability is the prime factor in establishing the value to you of your gas service.

MEMO to Lone Star Customers:

The past few months have been the busiest season for Lone Star Employees in putting the system in shape to meet the coming winter's demands. Why not take their work as an example and put your own equipment in good operating condition?

In performing his duty, whether at a desk analyzing maintenance costs or in the field overhauling a piece of machinery, a Lone Star Gas Man meets problems which are a test of his skill, a challenge to his ingenuity. For instance, in keeping pipeline suspension bridges in ship-shape condition, painting the suspender rods has been a problem. Now the job is easy and done twice as fast because of a boatswain's chair invented by the paint crew which permits the painter to move from rod to rod in complete safety.

This is only one example of how a Lone Star Gas Man goes about the important job of maintaining Lone Star dependability. In improvising special tools for special jobs he increases the organization and operating efficiency which are reflected in Lone Star's low rates.

POT SHOTS FROM M'CAULLEY

BY GEO. DARDEN

All that are interested in the McCaulley Cemetery are requested to meet at the McCaulley Baptist church the fourth Sunday afternoon at 3 P. M. Plans are to purchase two acres of land joining the Cemetery, which is badly needed.

Mr. and Mrs. S. E. Miers attended the Fisher county singing convention at Hobbs last Sunday.

Mr. and Mrs. Turner Beard of Itasca, Texas, were week end visitors in the homes of Mrs. W. M. Keller and the L. E. Rectors.

Due to the fact that Rev. C. E. Dick has had in mind for several months a men's Bible class down town, a paper has been circulated to that effect and a great number of men of this community favor such a class. The purpose of such a class, is to make it easy for those who don't attend any Sunday school class at any church. The paper circulated, reads as follows: We the undersigned, favor and will support a Men's Bible class, down town, to be held in the Bank building each Sunday at 10 A. M. under the direction of the McCaulley Baptist church. Thus far, the following have signed said paper: N. A. Skaggs, Geo. Darden, Fred Maberry, J. I. Parker, F. L. Rector, C. D. Jones, J. W. Rush, D. M. Maberry, Geo. Maberry, Joe Skaggs, G. W. Martin, Nash Miers, Melvin Hunter and Burl Bunkley. As the class is to be under direction of the Baptist church, Rev. Dick was elected teacher by the members of the Baptist church on last Sunday, and we hope to get ready for the first class on next Sunday. Buford Jackson will be the official pianist for the class. Other officers such as president, secretary and treasurer, sick committee, etc., will be elected later. Plans are to have special numbers on the program each Sunday, including quartets. All men are invited and urged to attend.

Marvin and Francis Davison left Sunday for Denton where they will attend N. T. S. T. C.

Billie Pickron from Kelly Field, is spending a few days with his parents, Mr. and Mrs. Bill Pickron. Billie Max Waldrop is attending

a business college in Abilene. Sorry to learn of the death of Mr. Stocton, father of Mrs. Howard Davison. Funeral services were held at Pleasant Valley, with Rev. Parks, Baptist pastor, saying the last rites.

Mrs. C. E. Rector and daughter Pat are spending a week or ten days in the home of a sister, Mr. and Mrs. Turner Beard in Itasca. Curtis Stevenson was painfully injured while building a new trailer Sunday, when a bolt hit him in the eye. He is under a doctor's care in Abilene.

Cicero (Pa) Martin, who is only ninety-seven years old, was in Sweetwater last week and decided that he wanted to turn cowboy again, so he purchased for himself a fancy pair of cowboy boots. But from reports that we can gather, the heels were a shade high for Pa and he decided to return said boots.

W. C. Lee tells us that he is expecting five East Texas boys in to board and room and pick cotton for him within the next few days.

The McCaulley High school six man football team is said to be in fine shape and expects to give other schools a run for the money this year.

Mr. and Mrs. Louis Boyd and daughter Velma Lou and sons, Holman and Buddy, went to Stephenville last Sunday. Buddy will enter school at John Tarleton.

Cotton pickers are wanted in this community by the truck loads, and as cotton is a good price and cotton picking a good price, we see no reason why everybody shouldn't make some money.

McCaulley needs a cafe. School kids are hungry for hamburgers and gin employees are ready to eat. The Darden Cafe is equipped and is for lease or sale. Due to other business, the owner will be unable to operate it this fall.

Texas Rangers were riding out pastures in Fisher county last week looking for stolen cattle. Quite a few men have reported the loss of cattle from pens or pastures and it seems to us that it is about time

something is done about cattle rustling in Texas.

BROTHERHOOD MEETING

The Methodist Brotherhood consisting of representatives of churches of Rotan, Sylvester, Roby and McCaulley, met at the local Methodist church Tuesday night. A helpy-selvy dinner consisting of chicken salad sandwiches, potato chips, ice cream, cake, etc., was enjoyed by 43 men present.

Levi McCollum was master of ceremonies. Men from the Anson church were in charge of the program. A male quartet, Messrs. Collins, Thompson, Anderson and Miller, sang three numbers. Lynn Shook of Anson and formerly connected with the Y. M. C. A. at Fort Worth, was the principal speaker, who used as his subject, "The Youth of the Church."

The next Brotherhood meeting will meet next month at Sylvester.

O-O-O-O

A great many folks are poor sports. Some get angry when they lose a ball game; some get angry when a school teacher spansks their child, and others really get peeved when their candidate fails to win an election. Some unknown person mailed us two clippings from the Herald. One of the clippings was "Hold Your Tongue" by W. L. Cash, and pinned to said clipping was a Darden-O-Gram that was in the same edition of the Herald. The O'Gram must have stepped on some ardent supporter of the ex-flour salesman's toes, for written on the "Hold Your Tongue", in long hand were these words: "To a country boy. Think this over. It will be a good lesson". When the person called us a country boy, we consider that a compliment. Thanks. But as for speaking unkindly to any one that is out of our line. "Hold Your Tongue" is more truth than poetry, but it didn't say a thing about holding your typewriter. If we Country Boys were the kind that did not believe in our form of government, then it would be wise to hold our tongue, but as long as we remain one hundred per cent American who believe in clean politics, free press and the right to live and let live, surely we have the right to comment on speeches that are sent out over the airways by supposed to be

"In Our Old Stand"

TEXAS

public servants. Mr. Roosevelt did not mince his words when he took a lot of pot shots at Hitler last Thursday night, and we agree with him one hundred per cent. It won't hurt if we plain country boys take a few cracks at politicians who ride to Washington on a hill billy band. Some folks are too tight to pay the preacher and yet they may need him at any time. A fellow is pretty well known by his neighbors. When we get to the place where we have to count our friends on our fingers, and when we come to the conclusion that we can't smile and have kind words for everybody, even our neighbor's dog Lee O', then this country boy will go to town and jump off a ten story building. "Judge not, lest ye be judged."

A DARDEN-O-GRAM.

It Pays to take the Herald

Mr. and Mrs. W. L. Palmer and daughter, Mrs. Fay Westmoreland of O'Donnell, were here Saturday to accompany Mrs. D. M. Poe, Mrs. Palmer's mother, back to O'Donnell where she will visit several weeks. W. L. Palmer is one of the big farmers in the O'Donnell country, operating nearly 8,000 production acres.

Misses Constance Teague, Anne Mae Calhoun, Hazel Adkins, Marjorie Martin, Lois Ellen Stell, Joyce Hudson, Marjorie Riddle and Messrs Glenn D. Adkins, J. C. Bledsoe, Stanley Wilson, Charles Brown, and Lovell Stell left this week for Denton to attend N. T. S. T. C.
